A well-stocked library facility is available for all the students and teachers. It is a place where students access a wide range of books, magazines, and reference materials. The library is spacious, well-lit, and comfortable, with adequate seating arrangements.

Science Laboratory:

Science departments of Chemistry, Physics, Botany, Zoology, Civil Engineering, Nursing, and Computer well-equipped laboratories to cater to the skill education, other degrees, and school/college course requirements. Some of these have been further strengthened with sophisticated equipment as per the need of current syllabi.

Classrooms:

There are 35 classrooms to cater to the teaching-learning requirements of different academic programs being offered by the University in this college.

Clean and Cold Drinking water:

Janaprabha Sankul has two cooler cum water purifier and three water purifiers installed on each floor of the building. Clean drinking water is a basic necessity for every student. The campus has a safe and reliable water supply. The water is also tested regularly to ensure that it is free from harmful contaminants.

Clean and Hygienic Toilets:

Proper sanitation facilities are available on the campus to promote good health and hygiene. Toilets are always clean, well-maintained, and equipped with basic amenities like soap and water. Separate restrooms are easily accessible for all students, with separate area for boys and girls.

Proper Ventilation:

Proper ventilation is crucial for a healthy learning environment. All the classrooms have sufficient windows which are opened to allow fresh air and natural light to come in. Fans are available that maintain better and better airflow to maintain the weather conditions.

Medical Facilities:

Janaprabha Sankul has basic medical facilities like a first aid kit and trained staff to handle medical emergencies. A nurse or doctor is available on the premises on a call basis to provide medical care and attention to students who require it.

Sports Facilities:

A playground is a place where students are engaged in physical activity and develop their sports skills. Students need to have a playground with adequate equipment for sports and other physical activities. The Janaprabha Sankul has a well-supplied gymnasium with a well-qualified instructor wherein the students are trained. Besides, the campus also encourages outdoor games such as football, cricket, kabaddi, kho-kho, and volleyball.

Annual sports competitions are held to detect talented sports prospects on campus and to encourage them further.

Recreation Centre:

A Healthy mind resides in a healthy body, and with this belief, the institute will persist in its endeavours and conduct more such events under recreation activity. **Yoga:** The students, all volunteers, participated in yoga class three times a week for seven weeks or personal health classes that included a meditation and mindfulness unit. The students were assessed for their perceived stress and anxiety levels before and after taking the program.

Considering the growing need for mental health services among undergraduates and the demand for counselling services, yogic intervention is accessible to all students on campus and provides mental health benefits from engaging in the practice.

Zumba: Everybody and everybody! Each Zumba is designed to bring students together to sweat it on. We take the "work" out of a workout, by mixing low-intensity and high-intensity moves for an interval-style, calorie-burning dance fitness party. A total workout, combining all elements of fitness – cardio, muscle conditioning, balance, and flexibility, boosted energy, and a serious dose of Fun Zumba.
